Profile

B.Tech Computer Science and Engineering (Data Science) student at Ballari Institute of Technology and Management with an interest in software development, programming, and data science. Familiar with C, Python, and Java, with a strong interest in developing practical projects and improving technical skills.

Education

B.Tech – Computer Science and Engineering (Data Science)	2025 – 2029
Ballari Institute of Technology and Management (BITM)	CGPA: 7.8
Class XII / PUC	70%
Class X	71%

Technical Skills

Programming Languages: C, Python, Java

Core Skills: Problem Solving, Programming Fundamentals, Data Science Basics

Projects

Smart CGPA Calculator

- Developed a Python-based application to calculate SGPA, CGPA and percentage
- Added grade calculation and semester-wise performance tracking.

Fake News Detection

- Developed a Python-based application to identify whether news content is real or fake.
- Used machine learning and natural language processing techniques for text classification

Academic Interests

Data Science, Artificial Intelligence, Software Development, Machine Learning, Problem Solving

Languages

English — Kannada — Hindi

Additional

- Active participation in academic projects and technical activities.
- Interested in developing practical software and data-science projects.
